🚀 COMPLETE SYSTEM UI/UX MASTER STRUCTURE

Solar + Water Service + Fleet Management Platform

🎯 PROJECT OVERVIEW

Integrated platform including:

- 📱 Client Mobile App
- 👷 Technician Mobile App
- 📊 Admin Dashboard (Desktop WebView)
- 🚗 Fleet / Vehicle Management System
- 💳 Installment & Accounting System
- 🛠️ Maintenance & Service Tracking
- 📦 Inventory & Spare Parts Management
- ⭐ Review & Rating System

UI Style Requirements:

- HeroUI Component Library
- Modern premium dashboard design
- Glassmorphism + clean cards
- Unique KPI widgets
- Interactive tables + grid cards
- Fully clickable prototype
- Responsive animations
- Dark / Light support
- Professional enterprise look

📱 CLIENT APP (MOBILE VIEW ONLY)

🔐 AUTHENTICATION FLOW

1. Splash Screen

Features:

- Animated logo
- Brand intro
- Loading state

- Auto redirect

2. Onboarding Screens (3–4)

Pages:

- Solar services intro
- Water filtration intro
- Maintenance tracking intro
- Installment & support intro

UI:

- Full illustration
- Swipe animation
- Progress indicator
- Skip / Next buttons

3. Login

Features:

- Email / phone login
- Password field
- Social login
- Remember me
- Forgot password

4. Register

Fields:

- Full name
- Email
- Phone
- Password
- Confirm password
- Address

5. OTP Verification

Features:

- OTP input
- Auto detect OTP
- Timer resend
- Verify animation

6. Forgot Password

Features:

- Send OTP
- Reset password
- Success state

🏠 HOME MODULE

7. Home Screen

Sections:

- Top greeting header
- Notification icon
- Offer slider banner
- Categories grid
- Featured products
- Popular services
- Quick actions
- Recent requests
- Active installment card
- Device summary

Quick Actions:

- Request Service
- My Devices
- Pay Installment
- Track Request
- Download Invoice

UI:

- Premium cards
- Floating action button
- Glass widgets
- Gradient sections

8. Offer Slider Banner

Features:

- Auto slider

- Promo campaigns
- Installment offers
- CTA buttons

9. Categories

Categories:

- Solar Panels
- Water Filters
- Batteries
- Spare Parts
- Maintenance
- Accessories

10. Product Listing

Features:

- Grid/List toggle
- Search
- Filters
- Sorting
- Category tabs
- Product cards

11. Product Details

Sections:

- Product gallery
- Specifications
- Price
- Installment options
- Reviews
- Related products
- Add to cart

12. Cart

Features:

- Quantity update
- Remove item
- Coupon apply
- Summary card

13. Checkout

Sections:

- Address selection
- Payment method
- Delivery details
- Installment selection
- Order summary

14. Installment Plan Selection

Features:

- Monthly plan cards
- EMI calculator
- Interest details
- Due dates

15. Order Confirmation

Features:

- Success animation
- Order tracking
- Download invoice
- Continue shopping

👤 PROFILE & ACCOUNT

16. Profile Overview

Features:

- User profile card
- Device summary
- Payment summary
- Review history

17. Edit Profile

Fields:

- Photo upload

- Name
- Phone
- Address
- Password update

18. Address Management

Features:

- Add address
- Edit address
- Delete address
- GPS auto location
- Google map picker

🔌 MY DEVICES MODULE

19. Device List

Features:

- Device cards
- Warranty status
- Health indicator
- Maintenance history

20. Device Details

Sections:

- Device information
- Installation date
- Technician history
- Reports
- Active issues

21. Add Device

Fields:

- Device serial
- Model
- Install date
- Upload image

🛠️ MAINTENANCE MODULE

22. Create Request

Fields:

- Device selection
- Problem description
- Priority level
- Preferred time

23. Fault Type Selection

Options:

- Power issue
- Leakage
- Battery fault
- Noise issue
- Connectivity issue

24. Upload Media

Features:

- Upload images
- Upload videos
- Preview media

25. GPS Location Screen

Features:

- Auto detect GPS
- Live map preview
- Manual pin adjust

26. Request Submitted

Features:

- Ticket number
- Estimated response time
- Track button

🔄 REQUEST TRACKING

27. Request List

Statuses:

- Under Review
- Accepted
- Scheduled
- In Progress
- Awaiting Parts
- Completed
- Closed

28. Request Details

Sections:

- Timeline progress
- Technician info
- Live status
- ETA
- Notes
- Attached files

29. Technician Info View

Features:

- Technician profile
- Ratings
- Contact option
- Arrival tracking

30. Live Tracking Map

Features:

- Technician live location
- Route tracking
- ETA update

💰 INVOICE & PAYMENTS

31. Invoice List

Features:

- Invoice cards
- Paid/unpaid filters
- Download PDF

32. Invoice Details

Sections:

- Service charges
- Parts charges
- Tax
- Technician notes

33. Approve / Reject Cost

Features:

- Approve work
- Reject invoice
- Request modification

34. Payment Screen

Methods:

- Card
- Mobile banking
- Bank transfer
- Cash

35. Payment Success

Features:

- Success animation
- Receipt download
- Share receipt

💳 INSTALLMENT SYSTEM

36. Installment Dashboard

Features:

- Remaining balance
- Paid amount
- Next due date
- Progress chart

37. Plan Details

Sections:

- Total amount
- Monthly amount
- Due schedule
- Penalties

38. Payment History

Features:

- Payment timeline
- Download receipt
- Status badges

🔔 NOTIFICATIONS

39. Notification List

Notification Types:

- Request updates
- Technician arrival
- Installment reminder
- Invoice alerts
- Promotions

⚙️ SETTINGS

40. Settings

Features:

- Language
- Theme
- Notification preferences

41. Privacy & Security

Features:

- Change password
- Device sessions
- Biometric login

⭐ REVIEW SYSTEM

42. Review & Rating

Features:

- Rate technician
- Add comments
- Upload images
- Review service quality

Technician Can See:

- Ratings
- Review history
- Performance score

Admin Can See:

- Technician performance
- Negative review alerts
- Service quality analytics

👷 TECHNICIAN APP (MOBILE VIEW ONLY)

🔐 AUTH

1. Login

2. Forgot Password

📋 TASK MANAGEMENT

3. Technician Dashboard

Widgets:

- Assigned jobs
- Earnings
- Salary summary
- Pending tasks
- Vehicle status
- Parts requests

4. Task Board

Views:

- Kanban board
- Calendar view
- List view

Statuses:

- New
- Accepted
- On Route
- Working
- Awaiting Parts
- Completed

5. Task List

Filters:

- Priority
- Distance
- Date
- Area
- Status

📍 REQUEST HANDLING

6. Task Details

Sections:

- Client information
- Device history
- GPS location
- Fault details
- Media files
- Timeline

7. Client Profile View

Features:

- Address
- Contact
- Previous jobs
- Payment history

8. Map Navigation

Features:

- Route guidance
- Live traffic
- ETA

⚙️ WORK EXECUTION

9. Start Job Screen

Features:

- Check-in timer
- Arrival log
- Start button

10. Pause / Resume Job

Features:

- Pause reason
- Resume timer

11. Complete Job

Features:

- Completion notes
- Upload proof
- Capture signature

12. Fault Assessment

Fields:

- Root cause
- Technical condition
- Recommendations

💰 INVOICE MANAGEMENT

13. Create Invoice

Features:

- Add services
- Add parts
- Labor cost
- Tax calculation

14. Add Costs

Fields:

- Spare parts
- Quantity
- Service fees

15. Review Invoice

Features:

- Cost preview
- Approval status

16. Generate PDF

Features:

- Printable invoice
- Download/share

💵 PAYMENT COLLECTION

17. Payment Collection

Features:

- Collect payment
- Mark partial payment
- Pending status

18. Payment Status

Statuses:

- Paid
- Partial
- Pending
- Overdue

📑 TECHNICAL REPORTS

19. Create Report

Sections:

- Device condition
- Recommendations
- Maintenance details

20. Upload Before/After Photos

Features:

- Image comparison
- Upload progress

21. Submit Report

Features:

- Client visibility
- Admin visibility

📦 SPARE PARTS MODULE

22. Parts Request

Features:

- Search parts
- Quantity selection
- Priority request

23. Request Status

Statuses:

- Approved
- Pending
- Rejected

👥 TEAM MANAGEMENT

24. Team Management

Features:

- Request additional technician
- Team collaboration
- Shared notes

25. Team Activity

Features:

- Arrival logs
- Work logs
- Completion logs

📡 GPS TRACKING

26. GPS Tracking Screen

Features:

- Live location
- Route history
- Attendance logs

🚗 TECHNICIAN VEHICLE MODULE

27. My Assigned Vehicle

Features:

- Vehicle details
- Assignment period
- Odometer status

28. Fuel Entry

Fields:

- Fuel quantity
- Fuel cost
- Receipt upload

29. Fault Report

Fields:

- Vehicle issue
- Damage notes
- Photo upload

30. Vehicle Notes

Features:

- Operational remarks
- Usage notes

💰 SALARY & HISTORY

31. Salary Dashboard

Features:

- Monthly earnings
- Bonus
- Pending payments

32. Salary History

Features:

- Timeline
- Download slips

33. Performance Analytics

Features:

- Ratings
- Completed jobs
- Efficiency score

📊 ADMIN DASHBOARD (DESKTOP WEB ONLY)

🎨 DESIGN STRUCTURE

UI Layout:

- Sidebar navigation
- Top navbar
- Widget dashboard
- Grid card system
- Data tables
- Analytics charts
- Floating quick actions

HeroUI Components:

- Table
- Card
- Modal
- Drawer
- Tabs
- Charts
- Calendar
- Notification system

📊 DASHBOARD MODULE

1. Overview Dashboard

Widgets:

- Total users
- Active requests

- Revenue
- Installments
- Fleet usage
- Technician activity

2. KPI Analytics

Charts:

- Revenue chart
- Service trends
- Installment collections
- Fleet utilization

3. Alerts Center

Alerts:

- Overdue installments
- Low stock
- Vehicle issues
- Negative reviews

👤 USER MANAGEMENT

4. User List

Roles:

- Clients
- Technicians
- Engineers
- Accountants
- Managers
- Admins

5. User Details

Features:

- Activity history
- Assigned devices
- Financial summary

6. RBAC Permissions

Features:

- Custom roles
- Access permissions
- Module controls

🛒 SALES MODULE

7. Product List

Features:

- Grid/list view
- Inventory link
- Filters

8. Add/Edit Product

Fields:

- Product images
- Pricing
- Installment plans

9. Orders Management

Features:

- Order status
- Shipment tracking
- Invoice links

10. Offers & Campaigns

Features:

- Banner management
- Discount system

🛠️ MAINTENANCE MANAGEMENT

11. Request List

Features:

- Filters
- Priority indicators
- Timeline view

12. Request Details

Features:

- Technician assignment
- Device history
- Customer notes

13. Assign Technician

Features:

- Nearby technician suggestions
- Availability checker

14. Status Control

Statuses:

- Review
- Assigned
- Working
- Completed
- Closed

💰 ACCOUNTING SYSTEM

15. Invoice Management

Features:

- Invoice table
- Search

- PDF export

16. Payment Tracking

Features:

- Due payments
- Pending approvals

17. Financial Reports

Reports:

- Monthly revenue
- Annual revenue
- Outstanding balances

💳 INSTALLMENT MANAGEMENT

18. Plan Creation

Features:

- EMI setup
- Penalty rules

19. Client Assignment

Features:

- Link clients
- Track approval

20. Installment Tracking

Features:

- Due alerts
- Payment history

📦 INVENTORY MANAGEMENT

21. Parts Inventory

Features:

- Spare part cards
- Quantity tracking

22. Stock Management

Features:

- Incoming stock
- Outgoing stock

23. Low Stock Alerts

Features:

- Notification center
- Reorder suggestions

🚗 FLEET MANAGEMENT SYSTEM

24. Fleet Dashboard

Widgets:

- Available vehicles
- Active assignments
- Maintenance alerts
- Fuel usage

25. Vehicle Inventory

Features:

- Add vehicle
- Edit vehicle
- Archive vehicle
- Vehicle history

Vehicle Fields:

- Vehicle ID
- Vehicle number
- Model
- Year
- Status

26. Vehicle Assignment System

Features:

- Assign vehicle
- Start/end assignment
- Odometer tracking
- Prevent overlap assignments

27. Activity Logs

Track:

- Fuel entries
- Faults
- Assignment history
- Notes

28. Odometer Tracking

Features:

- Start reading
- End reading
- Distance calculation

29. Fleet Reports

Reports:

- Vehicle report
- Employee usage report
- Fleet summary report

Features:

- PDF export
- Print layout
- Filters

📊 REPORTS & ANALYTICS

30. Technician Performance

Metrics:

- Completed jobs
- Rating score
- Average response time

31. Revenue Reports

Charts:

- Income
- Expenses
- Installment revenue

32. Operational Reports

Metrics:

- Maintenance efficiency
- Fleet utilization

⚙️ SETTINGS

33. System Settings

Features:

- Branding
- Localization
- Tax rules

34. Audit Logs

Features:

- User activities
- Security logs
- System history

🎨 UI/UX DESIGN DIRECTION

CLIENT APP DESIGN

Style:

- Modern premium mobile app
- Rounded cards
- Gradient CTA buttons
- Floating widgets
- Smooth animations

TECHNICIAN APP DESIGN

Style:

- Fast workflow design
- Large action buttons
- Offline-friendly UI
- GPS-focused layout

ADMIN DASHBOARD DESIGN

Style:

- Enterprise SaaS dashboard
- Interactive KPI widgets
- Analytics-heavy layout
- Premium tables
- Unique grid cards
- Modular layout system

🔥 SPECIAL FEATURES

FULLY CLICKABLE PROTOTYPE

Need:

- All buttons clickable
- Navigation connected
- Real workflow simulation
- Modal interactions

- Loading states
- Empty states
- Success/error states

WORKFLOW TRACKING

Track:

- Orders
- Maintenance requests
- Technician location
- Installments
- Fleet usage
- Inventory movement

EXPORT FEATURES

Need:

- PDF export
- Printable reports
- Invoice download

NOTIFICATION SYSTEM

Need:

- Push notifications
- SMS alerts
- Email alerts
- In-app notifications

🧠 RECOMMENDED TECH STACK

Frontend

- Next.js
- React Native / Flutter
- HeroUI
- Framer Motion
- Tailwind CSS

Backend

- Python Backend
- FastAPI / Django

Database

- PostgreSQL

Maps & GPS

- Google Maps API

Charts

- Recharts / ApexCharts

Authentication

- JWT + OTP

Cloud

- AWS / Firebase

✅ FINAL DELIVERABLES

CLIENT APP

- Mobile UI only
- Full clickable prototype
- Modern animations
- Complete workflow

TECHNICIAN APP

- Mobile UI only
- Field operation workflow
- GPS + Invoice + Reports

ADMIN DASHBOARD

- Desktop responsive only
- Full analytics dashboard

- Fleet + Accounting + Maintenance
- Grid cards + tables + charts

✅ CORE SYSTEM CONNECTIONS

System connects:

- Clients
- Technicians
- Vehicles
- Devices
- Requests
- Installments
- Invoices
- Inventory
- Reports

Into one unified enterprise ecosystem.
